9:00am – 4:00pm

Join us as Suzanne presents two fantastic seminars geared at building your relationship with your dog.

Saturday, 4/28/12 - Understanding the Physical Dog & Effects on Training, Behavior & Performance

This seminar will focus on structure, gait analysis, assessing the dog's balance, flexibility and symmetry. As well as common physical problems that cause common behavior problems and possible solutions.

Participants will learn to really see their dog as a physical being, to recognize minor problems before they become big issues, be alert to their dog's strengths & weaknesses, and to understand how some things just might be past what the dog can comfortably do.

Sunday, 4/29/12 - Becoming Your Dog's Best Partner

This seminar will focus on developing good handling skills. We will work on leash handling, when to reward and toy handling. Body and movement exercises will help improve awareness of the use of space and orientation. Other exercises include breathing/jaw/blink exercises, various games such as 'Fruits & Veggies' (Suzanne's variation on the training game used by Karen Pryor) and using hands with awareness; basic energy field work, finding hot & cold areas and dog response. Participants will learn to improve their awareness of their own bodies, body language and orientation and how to use the leash, collar, food and toys with greater skill.

Cost: \$110 for a one day seminar or \$200 for both days.

Breakfast is included in the price.

Lunch: \$8.00 per day
